

3 Core Round Mains Cable Blue 50m

Product Type

3183YA Mains Cable

Application:

Designed to withstand severe external temperatures remaining flexible at temperatures as low as -40°C . Particularly suitable for outdoor applications and for use where flexibility is required at sub-zero temperatures

Specification:

- 3 Core Round Mains Cable
- Product Type: Main cable
- At normal temperatures the cable is very limp and flexible, offering some of the characteristics usually found in elastomeric cables
- Plain annealed copper conductors
- Voltage rating: 300/500V
- 16A Rating
- Cable Length: 50m
