

Non-Latching RCD Safety Plug

Specification

Switches off if power to the appliances is turned off

40ms, Double-pole contact break

Protection against fatal electric shocks

When the appliance is turned off, the RCD will trip and need resetting

Complies with BS7071:1992

Application:

A safety RCD adaptor from Masterplug for added protection against the risk of electric shock. It instantly cuts the power in the event of an earth connection leakage. It is non-latching, therefore power needs to be reset at each use and it is ideal for home appliance spike protection.
